

NOVEMBER 3, 2017

3rd Grade Learning

Congratulations to Benjamin Drake! He is our Green Team Star of the Week.

Reading

In reading, students are partner reading informational books about bats.

They will be creating character scrapbooks about fractured fairy tale characters.

Math

In unit 3, we worked on What's My Rule? tables and learned two strategies to add multi digit numbers: partial sums method and column addition.

Writing/Spelling/Cursive

Students learned how to edit with a peer by giving positive feedback and making suggestions. They also typed an opinion piece about Halloween costumes.

No spelling next week.

Science

We began our study of owls this week. Students will learn about an owl's life cycle and what they eat.

**Flashlight Reading**

Our flashlight day was a bit of a bust because we were all using them for our own power outages. We will try for another day in the next month or so, once the novelty of using them for light has worn off :)

**Third Grade Assembly**

On November 16, the third grade will be presenting at the Panther Pride Assembly. Students will be talking about Veterans Day and the branches of the military. If your family has any veterans, we would love to honor them at the assembly that day.

**Partial Sums Addition**

$$\begin{array}{r}
 300 + 400 \rightarrow 700 \\
 20 + 10 \rightarrow 30 \\
 9 + 8 \rightarrow 17 \\
 \hline
 747
 \end{array}$$

**Column Addition**

$$\begin{array}{r}
 67 \\
 +25 \\
 \hline
 812 \\
 92 \\
 \hline
 67 + 25 = 92 \\
 \text{column addition}
 \end{array}$$
