Unit 2 Math

Number Stories and Arrays

- Use basic facts to add and subtract larger numbers
- Solve number stories
- Solve multi-step problems
- Understand multiplication in terms of equal groups
- Use pictures and arrays to solve multiplication and division problems
- Understand division as sharing a quantity
- Make sense of remainders in division problems

NWEA Testing

Students will be taking a math and reading test on the computer this week.

NWEA tests are also taken in the winter and the spring to check on student growth and areas they need more practice.

Products and Producers

Students are working in business groups to create products as part of our finance unit. The products are paper airplanes, bookmarks, fortune tellers, and greeting cards. Each business came up with their name, their needs and wants, and how their product benefits others. Students will be "selling" their products on Market Day this week.
